## **MALAKOFF IMPARTS RENEWABLE ENERGY EXPERTISE TO TVET STUDENTS FOR THE NATION'S ECONOMIC AND CORPORATE ADVANCEMENT**

**KUALA LUMPUR, Malaysia – 8 December 2023:** Malakoff Corporation Berhad (“Malakoff”) has inked a Memorandum of Cooperation (“MoC”) with the Ministry of Human Resources (“MOHR”) to collaborate in facilitating and imparting specialised skills in renewable energy (“RE”), energy solutions and district-cooling system to students enrolled in Technical and Vocational Education and Training (“TVET”) programmes, simultaneously driving economic growth through a concerted effort to strengthen practical skills and knowledge tailored for specific occupations.

The signing of the MoC, undertaken by the Minister of Human Resources Yang Berhormat Tuan V. Sivakumar and Malakoff’s Head of People Division Encik Raja Iskandar Raja Mukhtaruddin, was held in conjunction with the ‘*Program Setahun Bersama Kerajaan Madani*’ at Stadium Bukit Jalil. The signing was witnessed by Malaysia’s Deputy Prime Minister Yang Amat Berhormat Dato’ Seri Dr. Ahmad Zahid Hamidi.

Through this agreement, Malakoff will develop course modules focusing on RE, energy solutions and district-cooling system. The company will also share its knowledge and expertise to enhance the skills of trainers at Public Skills Training Institutes (“ILKA”). Additionally, Malakoff will contribute by granting access to necessary facilities and equipment, alongside providing essential funding for courses and training facilities at its premises to elevate the students’ learning journey for their professional advancement.

Speaking on this collaboration, Encik Anwar Syahrin views it as a chance for industry experts, such as Malakoff, to actively contribute to shaping a curriculum tailored to the knowledge and skills essential in the workforce. This is particularly crucial in a dynamic and demanding sector like the energy industry.

“Despite our extensive experience in the industry, we recognise the ongoing need for upskilling the young talents to meet evolving demands. Embracing this initiative that encourages companies to actively contribute to enhancing skills and competencies, we believe it will not only propel the participating company’s growth but also equip the younger generation with essential training and equipment, acting as a catalyst for economic growth. Furthermore, it offers us a chance to optimise our business efficiencies, consequently supporting the country’s energy transition targets for a sustainable future. Malakoff is truly honoured to be part of this remarkable endeavour”.

This collaboration is part of Malakoff’s commitment towards the UN Sustainable Development Goal (“SDG”) No. 8 that promotes sustained, inclusive and sustainable economic growth, as well as full and productive employment that translates into a decent work for all.

## **ABOUT MALAKOFF CORPORATION BERHAD**

A sustainably-driven multinational energy generation and environmental solutions company, Malakoff is committed to enhancing lives and enriching communities. It is Malaysia's largest Independent Power Producer ("IPP") with a generating capacity of 6,953 MW through domestic thermal plants. The Group's Renewable Energy portfolio stands at 151 MW, mainly comprising large-scale solar, rooftop solar and small hydro projects. Through its subsidiary, Alam Flora Sdn Bhd, Malakoff is also one of the country's leading environmental services companies, managing waste volume of 5,748 tonnes per day.

Malakoff has established an international footprint of innovative solutions, notably through its power generation and water desalination ventures in Saudi Arabia, Bahrain, and Oman.

Currently in its next transformational stage, Malakoff is driving change to realise the Nation's ambitions of carbon neutrality and a circular economy through its three core entities; Malakoff Green Solutions for renewables through solar, small hydro, biogas, biomass and carbon-free mobility infrastructure; Malakoff Environmental Solutions for solid waste management and public cleansing, infrastructure cleaning and waste solutions, integrated facility management, recycling, marine and hazardous waste solutions, water desalination and Waste-to-Energy projects; and Malakoff Energy for thermal power generation assets, operations and maintenance, electricity distribution and district cooling system.

In its pursuit of a cleaner and greener world, Malakoff is dedicated towards fostering collaboration, sharing of knowledge, and leveraging collective expertise to create a more sustainable and resilient future for all.
